

# Safe And Sound Fire Ltd

# About Us

Safe and Sound Fire Limited put customer needs at the center of everything we do. We will strive to deliver our promises and exceed customer expectations by providing what they want, when they want it and in perfect condition. Our people are at the heart of our business, giving us a more competitive edge as Fire Protection Engineers and Consultants. We encourage and support each individual development and value each person's contribution.

# Intruder Alarm Systems

We are a dependable and trustworthy family run company. Our friendly experienced engineers are highly skilled and have over 40 years of experience in burglar alarm installations, burglar alarm repairs and burglar alarm servicing with all different types of alarm systems across Glasgow, Edinburgh & surrounding areas. Safe & Sound Fire LTD provides a range of high quality alarm systems to homes, local businesses and commercial establishments in Glasgow, Edinburgh and other surrounding regions.

# CCTV Systems

Camera Type: CCTV cameras come in various styles, such as dome, bullet, and PTZ (pan-tilt-zoom) cameras. Each type has its own benefits and applications, so consider your specific needs when choosing a camera style.

Image Quality: High-resolution cameras provide clearer images, making identifying intruders and other details easier. Consider the importance of image quality when selecting a CCTV system.

Night Vision: Many CCTV cameras now offer night vision capabilities, ensuring your property is monitored effectively even in low-light conditions.

# Fire Extinguishers Service

Safe and Sound Fire Limited:  
Service costs include all consumable service parts such as Safety pins, Safety clips, `O`-Rings, Chubb OK indicators, Gauge tests, labels, Anti-tamper seals, CO2 swivel horns, CO2 hose, and horns for standard UK portable Fire Extinguishers.

# Quality Access Control Solutions

We work with industry-leaders in supplying and installing access control systems. We are also an NSI (National Security Inspectorate) Gold approved installer, meaning you can be assured of the very highest standards and professionalism. Couple all of this with guarantee your security needs are in safe hands. Access control systems are easy to configure and manage Your teams can forget about the hassle associated with traditional keys You can set specific access times and dates with an access control system.
